Subject: [BoatAnchors] followup on FPM-300 issues
Message-ID: <4df5006c-b8b6-21a6-173d-9dbf14d9dd8a@ec.rr.com>

Hi folks,

I wish I could report success on the VOX problem, but can't. I've replaced or at least ckd all suspect caps and other components in the VOX ckt, still no luck. Must have missed something. So, no CW for now.

But, another problem showed up during the CX on fone last wkend. Previously I'd only operated the rig with the top cover off. With it on, after transmitting some, the rcvr lost sensitivity. Not dead, just very low. I opened the cover and it came back in 3-5 minutes. A heat issue. I've hunted around several times using a heat gun, but with things on a PC board(s) you can't pinpoint anything that way. The regulated 10v line stays good. Have ckd other voltage levels similarly, no help. If I can measure the RF signal level coming from the preselector/RF board to the IF board, maybe I can at least figure out which board the problem is on.

Thanks for all the previous suggestions on tantalum caps, etc. Any thoughts on this one will be gratefully recd.

Message-ID: <CA+kZa5oe+_BcSe9g7vvEUOPeTmEh9GUS-QBigQDwKi9K7CqJCg@mail.gmail.com>

Anyone got a tube type TR switch gathering dust? Dead or alive. I can assemble one from parts but do not feel like scrounging for a chassis/enclosure. Have lots of swap stuff like NOS 6146, some 455kc ceramic filters (2k Ohm I/O), CR1-A and FT171 crystals. 73, -Bob ah7i/w4(honolulu/atlanta)

Subject: [BoatAnchors] Swap Meet for sale list
Message-ID: <CA+NFokSOR7LkUchzFZdBgN3epKJA2uqb7_kQMgyQyrRX+GHuhA@mail.gmail.com>

This Saturday (October 8th) I'll be at the Bridgerland Amateur Radio Club Annual Swaptoberfest swap meet in Logan Utah. I'll have the following with me for sale.
I'm retiring in a few years and am starting to whittle down the accumulation of stuff.

For Sale List:

Hewlett Packard Model 200 Audio Oscillator - recapped and working
Atwater Kent Model 53
Majestic Model 70
General Electric Model A82 "Fishmouth" Radio
AN GRR5 (Angry 5) Military Receiver - Working
Singer FM-10 Service Monitor
Two Tektronix 310 Oscilloscopes
Pair of Motorola MT1000 on 52.525 MHz

Pair of Motorola MT1000 on 29.600 MHz
Icom ID-31 DStar handheld
Grebe MU-1 Synchrophase
2 Zenith tube Transoceanics
    1: 8G005
    1: 5H40 chassis model
Two B&K Model 707 tube testers.
TRF tube set in poor condition. Lots of good parts including 01A sockets
and tuning capacitors, coils.
Johnson Viking 1 AM 100 watt transmitter
Heathikit DX-100B AM 100 watt transmitter
Sparton Model 617 Radio chassis (It's a frankenradio) in a Crosley cabinet
Heathkit transistor curve tracer

Probably other stuff too, just haven't had time to get it on the list.
Priced to move. Don't want to take it back home.
See www.barconline.org for swapmeet details.

Thanks.

Message-ID: <1C0C902C63FD46E7BDAE80C10BC9F4E4@Lenovo>

BA Builders,

I have six Centralab P-271 rotary switch detent and shaft assemblies, NOS, NIB.
You supply the wafers taken from like switches to build up a switch with from 3 to
6 wafers, 2 to 11 positions. Included with each kit is a selection of between
wafer spacers and a chicken head knob. $3 plus postage to the bold and the brave.
Photos provided on request.

I have used it in various projects with good results and looks pretty good
too. GL....73 de Bill K4JYS
http://www.radiodaze.com/cloth-covered/

I?ll stick with UL 1007 (300V) and UL 1015 (600V) naked PVC insulated wire. At least I know what I?m getting. RadioDaze does not know how to list products by their proper technical specifications.

Subject: [BoatAnchors] Schematic help needed
Message-ID: <CA+NFokQQp=1qvHPZpKsLZkZBRFfZJ6aWKFB=VU2jBcAQpO9MYw@mail.gmail.com>

Folks,
I have a Singer FM-10 service monitor with a ODM-1 scope module. The scope module needs a little work and a copy of the schematic would be very helpful.

Anyone have a copy of the schematic they can mail me?

Thanks...

Subject: [BoatAnchors] FS: British military receivers

Message-ID: <3ab53c06-4646-c711-4f8d-d0d514017403@nova.org>

Hello All,

First - these are for pickup only in Silver Spring, MD or I can deliver to the October 16th MAARC Fall Fest in Davidsonville MD, or to the Mason-Dixon Hamfest on 10/23/2016 in Upperco, MD.

I have for sale British military radios.

1. WW2 R1132A VHF receiver. This is a 220V AC powered ground receiver, covering 100-125MHz. It comes with the original power supply and interconnect cables. It is being sold AS-IS. Price is $125.

2. WW2 R208/R110 receiver. This is a AC or 6V DC powered set, covering 10-60 MHz. It comes with an additional R110 complete receiver chassis which is almost identical but does not have the case. It is being sold AS-IS. Price is $125 for both pieces.

I could ship the R1132A in two boxes but it will be expensive.

You know, we boatanchor guys are "missing a bet."
You'd think our close association with "audio-phoolery"
would give us a clue to this early-retirement path.
Don't laugh: They've actually sold several of them:

Just in case you find something strange at a hamfest (or in your garage).
Some things I am looking for -

Boehme 4-G Ink recorder (records Morse onto paper tape)
http://www.navy-radio.com/morse/boehme-4g-inker-11.jpg

Frederick Electronics 660A Baudot-to-Morse converter (manual and/or equipment)
http://www.navy-radio.com/morse/fred-660a-1308.JPG
Military CV-2015/U, CV-2015A/U

Frederick Electronics 670 Morse-to-Baudot converter
Military CV-2124/U, CV-2124A/U

Thanks!
